

Chemische Fabrik Kreussler & Co. GmbH in Wiesbaden, Germany, is a family owned, medium-sized company with two divisions of "Pharmaceutical" and "Textile Care".

The product range of "Textile Care" includes laundry-, dry-cleaning- and textile treatment products for industrial and commercial users.

Kreussler's success is built not only on its high quality products but also on its experience in applied technology and its ability to give professional technical support.

For expanding our team in the UK we are looking to recruit a:

Laundry Chemical Dosing Field Technician (f/m)

Chemische Fabrik Kreussler & Co. is a family owned company specializing in the manufacture of high quality liquid and powder products for the laundry and dry cleaning industry. The success of Kreussler is due to its high quality products and class leading service and support. The strong growth of the UK business leads us to look for an experienced laundry technician, biased in the installation and maintenance of chemical dosing equipment.

Based from home, and reporting to the UK technical manager, you will undertake the installation and maintenance of laundry dosing equipment at existing and new customers around the UK. After excellent product training your role will be to provide outstanding '1st time right' service and support to our customers and partners. The job involves extensive travel and - depending on your location - will require 30-50% of your time away from home.

Your Tasks and Key Responsibilities:

- The role involves the maintenance and installation of laundry dosing equipment (Hydro Nova and Brightwell).
- The job involves working within the OPL and commercial laundry field. Sites from small high street shops to large scale commercial laundries.
- You should be able to plan your own diary and schedule (with the assistance of the UK team) based on the workload.
- The role is customer facing so a professional attitude is essential at all times.
- Identify new business opportunities and report these to the UK manager.

Essential Qualifications/Experience:

- City and Guilds or equivalent electrical qualifications.
- Previous experience installing dosing equipment (Hydro and Brightwell) to washer/extractors. Experience working on tunnel washers would be beneficial.
- Ideally experienced in the programming and set up of Miele, Girbau, Primus and Electrolux machines, training will be given when required and software will be provided.
- Candidate should possess 17th edition IEE wiring regulations qualification.
- Clean driving licence.
- Strong communication skills in English, ideal German.
- Excellent PC skills.

The compensation will be a fix salary plus a commission and a company car.

If you are already experienced in laundry business, if you like to work in a team, if you are able to gather knowledge and experience and share it with others and if you like to take over responsibility in a success-orientated team, then we look forward to receiving your application including your salary requirement: recruiting@kreussler.com.
